

# WE'RE WITH YOU.

Resources to Supplement Learning at Home

[aspenacademy.org/homelearning](https://www.aspenacademy.org/homelearning)

Aspen Academy is a national leader in innovative education. Through internationally acclaimed academics and the nation's first integrated PreK through 8th grade leadership and entrepreneurial development program, our students are empowered to lead purposeful and extraordinary lives.

For parents, you might be asking yourself, **“How do I want my child to remember this moment?”** At Aspen Academy, we are committed to ensuring that children in our community remember the wisdom, optimism, grit, gratitude and resilience modeled by the adults in their lives during this time.

Many of you may have children at home (while you’re working) and are looking for ways to keep them engaged and keep your sanity. We’ve pulled together tips and resources for you:

**[aspenacademy.org/homelearning](https://www.aspenacademy.org/homelearning)**

As individuals, as organizations, and as a community, we will get through this and be stronger on the other end of it. Never in our lifetimes have we experienced something that so fundamentally tied us all to a singular moment of adversity and also gives us an opportunity to choose who we will be for ourselves and others in it.

**“In such an uncertain time, and with families of your own- I just wanted to say THANK YOU! Thank you for keeping some sort of normalcy, thank you for helping navigate all this technology for the kids and more so adults, thank you for your smiles, the comfort in your voices, and continuing to love our kiddos the way you do!”**
